As a result, actual clearance between the top of the finished floor coverage and the underside of the finished ceiling, drop ceiling or soffits will be less. All ceiling heights are approximate and subject to change. All depictions of furniture, appliances, counters, not necessarily included in each unit. Furnishings are only included if and to the extent provided in your purchase agreement. Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior dividing walls and to face of doorways (which generally only includes the interior areas between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with each other and to the floor plans. The area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will accurately reflect the floor plans and specifications for the development. All depictions of appliances, counters, soffits, floor coverings and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit.
