ABOUT THIS PROPERTY

The Kumquat Project is a remarkable development opportunity in Coconut Grove, one of Miami's most coveted neighborhoods. This prime 11,593 sq. ft. lot paired with a complete set of fully approved architectural plans by Praxis Architecture for a world-class design and approval process typically takes up to two years. This offering bypasses that entire process, representing an excruciatingly valuable time while delivering a truly iconic vision. The proposed residence spans 5,882 sq. ft. of living space (7,511 sq. ft. total) with a seamless indoor-outdoor flow, and an elegant modern aesthetic. First Floor: Features a dramatic double-height living area with expansive glass. A chef's kitchen opens to a spacious family room. A formal dining room includes an integrated bar. This level also includes a master bedroom with en suite, a service/multi-use room with en suite, and a powder room. Upstairs: Centers on the grand master suite with a walk-in closet. It is complemented by four additional bedrooms with en suites and a study/lounge overlooking the garden. The project balances elegance, functionality, and connection to nature, capturing the timeless allure of the Grove lifestyle through modern design. The Kumquat Project is more than a home—it's an opportunity to build a statement residence without the wait.
